Pennsylvania businesses are fortunate to have 22 Trade Advisors around the world to provide assistance and help them streamline their international business development and sales.

A business will select and meet one-on-one in half hour sessions with the Trade Advisors to introduce their company's products or services, discuss what they want to accomplish in the market, and identify available assistance. The Trade Advisors will provide the business insights into their selected markets, the products' or services' potential and the next steps that the business should take.

Last year, 31 Northeastern Pennsylvania businesses met with the Trade Advisors which resulted in 174 one-on-one meetings. A number of these businesses have generated sales from meeting with the Trade Advisors last year. Register today to be one of the fortunate businesses that will meet with the Trade Advisors this year.
